

CAESARS ENTERTAINMENT, INC.
TCFD INDEX
JUNE 2021

G20 Finance Ministers and Central Bank Governors asked the Financial Stability Board (FSB) to review how the financial sector can take account of climate-related issues. The FSB established the Task Force on Climate-related Financial Disclosures (TCFD) to develop recommendations for more effective climate-related disclosures that: could promote more informed investment, credit, and insurance underwriting decisions, and in turn, would enable stakeholders to understand better the concentrations of carbon-related assets in the financial sector and the financial system’s exposures to climate-related risks.

TCFD is a voluntary, consistent climate-related financial risk disclosure to provide information to investors, lenders, insurers and other stakeholders. The table below links to where the relevant information can be found on our website, in our 2019-2020 CSR Report, Form 10-K, and in our most recent CDP Climate responses.

TCFD Disclosure		Source
Governance- Our governance around climate-related risk and opportunities		
a) Board’s Oversight of climate related risks and opportunities		
	Process and frequency by which the board/board committees are informed about climate-related issues	Board Oversight CDP Climate Change 2020 (C1.1a)
	The board and/or board committees consider climate-related issues	Environmental Management System Board Oversight CDP Climate Change 2020 (C1.1b)

	The board monitors and oversees progress against goals and targets for addressing climate-related issues	Board Oversight Goals and Targets CDP Climate Change 2020 (C1.1b)
b) Management’s role in assessing and managing climate-related risks and opportunities		
	Assigned responsibilities for climate-related risks within management or committees	Environmental Management System CDP Climate Change 2020 (C1.2)
	Description of associated organization structure	Environmental Management System CDP Climate Change 2020 (C1.2a)
	Process by which management is informed about climate-related issues	Environmental Management System CDP Climate Change 2020 (C1.2a)
	Process for monitoring climate-related issues	Environmental Management System CDP Climate Change 2020 (C1.2a)
Strategy- The actual and potential impacts of climate-related risks and opportunities on our businesses, strategy and financial planning		

a) Short, medium and long-term climate- related risks and opportunities		
	Description of short, medium, and long-term time horizons	CDP Climate Change 2020 (C2.1a)
	Specific climate-related issues that could be material for each time horizon	CDP Climate Change 2020 (C2.1b)
	Process to determine material risks and opportunities	CDP Climate Change 2020 (C2.2)
b) Impact of climate-related risks and opportunities on business, strategy and financial planning		
	Impact of climate-related issues on business and strategy	CDP Climate Change 2020 (C2.3a & C2.4a)
	Impact on financial planning	CDP Climate Change 2020 (C3.1)
	Description of climate-related scenarios used to inform strategy and financial planning	CDP Climate Change 2020 (C3.1b)

c) Resilience of strategy, taking into consideration a 2-degree C or lower scenario		CDP Climate Change 2020 (C3.1d, C3.1e, C3.1f)
Risk Management- How we identify, assess and manage climate-related risks		
a) Process for identifying and assessing climate-related risks		
	Risk management process for identifying and assessing climate-related risks	CDP Climate Change 2020 (C2.2)
	Existing and emerging regulatory requirements related to climate change	CDP Climate Change 2020 (C2.2a)
	Process for assessing size and scope of climate-related risk	CDP Climate Change 2020 (C2.2)
b) Processes for managing climate-related risks	Process for managing climate-related risks	CDP Climate Change 2020 (C2.2)
c) Processes for identifying, assessing, and managing climate-related risks are integrated into our overall risk management	Integration of processes for identifying, assessing and managing climate-related risks into overall risk management	CDP Climate Change 2020 (C2.2)

Metrics and Targets- The metrics and targets we use to assess and manage relevant climate-related risks and opportunities		
a) Metrics used to assess climate-related risks and opportunities	Metrics on climate-related risks associated with water, energy, land use, and waste management	CDP Climate Change 2020 (C4-C9)
	Metrics incorporated into remuneration	CDP Climate Change 2020 (C1.3a)
	Metrics provided for historical periods and methodologies	GRI Index
b) Scope 1, Scope 2, Scope 3 emissions and related risks		CDP Climate Change 2020 (C5-C7)
c) Describe targets used to manage climate-related risks and opportunities and performance against targets		CDP Climate Change 2020 (C4)
